

SAFE CONTRACTING CARD

Questions to answer before the meetup

A public brief is an invitation to verify the work. It is not proof that the client, objective, payment, or stated danger is real.

SIX QUESTIONS BEFORE YOU ACCEPT

01

CLIENT

Can the client be confirmed through an independent channel?

02

OBJECTIVE

What exact condition completes the work?

03

SITE

Who controls it, and who may oppose entry?

04

PAY

Are total, shares, expenses, and escrow recorded?

05

SUPPORT

Who owns transport, medical, and communications?

06

EXIT

What discovery ends the contract immediately?

WALK-AWAY CONDITION

Undisclosed corporate interest, civilian harm, a material change in danger, or a client who will not define completion.

VERIFY FIRST // BRAG LATER

Board screening catches known patterns; it does not certify legality, solvency, accuracy, or survival.
